

fin_intel Financial Analysis Report

Apple Inc. (AAPL) is a technology company that designs, manufactures, and markets smartphones, personal computers, tablets, wearables, and accessories worldwide.

Here's a brief overview of its financial performance:

- * Current Stock Price: \$281.74
- * Market Cap: \$4.14 Trillion
- * P/E Ratio (Price-to-Earnings): 34.15. This ratio indicates how much investors are willing to pay for each dollar of Apple's earnings.
- * P/B Ratio (Price-to-Book): 38.81. This ratio compares the company's market value to its book value.
- * 52-Week High: \$317.40
- * 52-Week Low: \$199.26

This information suggests that Apple is a large and established company within the technology sector, with a significant market capitalization. The P/E and P/B ratios can be used to assess its valuation relative to its earnings and book value, respectively.
