Financial Report for NVIDIA Corporation (NVDA)

Company: NVIDIA Corporation (NVDA)

Sector: Technology

Business Summary:

NVIDIA Corporation operates as a data center scale AI infrastructure company across various regions including the United States, Taiwan, China, Hong Kong, and Europe. The company is divided into two segments: Compute & Networking and Graphics. The Compute & Networking segment focuses on data center accelerated computing, networking platforms, AI solutions and software, and automotive platforms for autonomous and electric vehicles. The Graphics segment primarily offers GeForce products.

Stock Performance and Valuation:

Current Price: \$194.97

52 Week High: \$236.54

52 Week Low: \$151.49

Market Capitalization: \$4.72 Trillion

P/E Ratio (Price-to-Earnings): 29.86. This ratio indicates that investors are willing to pay approximately \$29.86 for every dollar of NVIDIA's earnings.

P/B Ratio (Price-to-Book): 24.16. This ratio suggests that the market values NVIDIA at about 24.16 times its book value.
